TERMS AND CONDITIONS

The terms of this sale are governed by the laws of the state of Texas. Any amendments or updates, as posted on v8ranch.com or dvauction.com, supersede the contents of this catalog. Upon the conclusion of the auction, a separate sales agreement, including any additional terms, will be sent to the buyer for signature.

VIDEO PRESENTATION

Each lot is featured in a video, available for viewing on dvauction.com, providing a comprehensive visual of what's on offer. The video also includes a commentary on each heifer to offer additional insights into their characteristics and potential.

PAYMENT AND TRANSFER

The accepted forms of payment include cash, check, or bank wire. Payment is required upon receipt and must be settled before any animals are transferred from V8 Ranch. Upon receipt of full payment, registration papers will be transferred to the buyer. Failure to complete payment within 14 days of purchase can result in forfeiture of the animal, which may then be sold to another buyer upon written or electronic notice.

FEEDING TERMS

The heifers are currently housed in our show barn, and fitting charges of \$20/day begin immediately. If the new owner chooses to transfer their heifer into our development program, they will receive complimentary feed until December 1, 2023. From December 1, 2023, onward, a charge of \$8/head/day will apply. Our charges are necessary to cover the cost of providing top-tier care and nutrition for your cattle. Any veterinary expenses incurred will be the owner's responsibility. All accounts will be billed monthly, and feed charges must be settled in full when the cattle are picked up.

HEIFER VIEWING

Currently, the heifers are being halter-broken at our show barn and are available for in-person inspection by appointment. This opportunity allows buyers to evaluate the animals directly and understand their temperament and potential.

HEALTH

The cattle are eligible for an approved state health certificate for interstate shipment within the USA. Buyers are responsible for familiarizing themselves with the health requirements for their respective states. The animals have been meticulously cared for and have been vaccinated under the guidance of our veterinarian. They are presumed healthy at the time of sale. However, no guarantees are provided for health requirements for exports outside the USA.

LIABILITY AND INSURANCE

The buyer assumes immediate ownership and all associated risks, including injury, disease, or death, at the conclusion of the online auction. Insurance coverage is mandatory for any animal housed at the show barn. This coverage is available through Shelia Jensen of Jensen Livestock Agency, who can be reached at 785-374-4372.

FEMALE GUARANTEE

Females sold in the sale come with a veterinary certification of health and soundness, which is available upon request. They are guaranteed to be natural breeders for one natural calf, though this is not an all-encompassing insurance policy. Any circumstances of injury, death, poor management, or nutritional issues are not covered. The breeding guarantee is void if the heifer is not in a suitable body condition score to breed, if she is flushed or IVF'd before having a natural calf, or if she is exhibited at livestock shows. Buyers must inform us of any breeding issues by January 1, 2026. In case of any such issues, the buyer is obligated to return the animal to V8. We will then have a 6-month period to validate the breeding capability of the animal. In case the female is found to be a non-breeder, V8 will either select a suitable replacement or offer a sale credit for future purchases at V8. Cash refunds are not provided.

EMBRYO FLUSH

V8 Ranch retains the right, though may not exercise this right, to perform one embryo flush at the buyer's convenience, yielding a minimum of six grade one transferrable embryos. All costs associated with the embryo flush will be covered by V8 Ranch. All embryos obtained from V8 Ranch's flush will remain the sole property of V8 Ranch and are not for sale. Furthermore, V8 Ranch retains ownership of all DNA cell lines of animals sold in this sale.

HALF-INTEREST FEMALES

Lots offering half-interest females are subject to a specific sales agreement that details the partnership between the new buyer and V8 Ranch. For selected half-interest lots—explicitly noted in their footnotes—buyers have the option to double the purchase price to acquire full ownership of the female. Potential buyers interested in purchasing a half-interest female are encouraged to contact us before the sale. We will provide a copy of the partnership agreement for your review before any bidding or purchasing takes place. Open communication is paramount to us, and we strive for a successful and mutually beneficial partnership.
